Worship Theme: Democracy and Fundamental British Values. Democracy (the term originates from the Greek 'dēmokratía' "rule of the people." is "a system of government in which all the people of a state ... are involved in making decisions about its affairs, typically by voting to elect representatives to a parliament or similar assembly," as defined by the Oxford English Dictionary. Democracy is further defined as (a:) "Government by the people; especially: rule of the majority (b:) "A government in which the supreme power is vested in the people and exercised by them directly or indirectly through a system of representation usually involving periodically held free elections." According to political scientist Larry Diamond, it consists of four key elements: " 1. A political system for choosing and replacing the government through free and fair elections. 2. The active participation of the people, as citizens, in politics and civic life. 3. Protection of the human rights of all citizens. 4. A rule of law, in which the laws and procedures apply equally to all citizens." **H. Evans**
