

Sir John Cass Red Coat School Programme of Study – Key Stage 5

Subject: **Philosophy**

Year 12	Year 13
<p><b>Topics Covered/ Areas of Focus:</b></p> <p>The word Philosophy comes from the Ancient Greeks and can be translated to mean ‘the love of wisdom’. The Philosophy A- level course is designed to encourage students to explore a range of classical philosophical issues, from Epistemology and Metaphysics, to Rene Descartes’ Meditations.</p> <p>Through analysis, well-reasoned arguments and of course questioning, students are able to develop a wide range of skills including evaluation, critical analysis, essay writing and reading.</p> <p>At AS Level students are required to study Epistemology &amp; Metaphysics and Philosophy of Religion. The aim of the course is to introduce students to the fundamental theories in Philosophy and develop skills required for A2 and potentially undergraduate study.</p> <p>Epistemology and Metaphysics explores:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> What are the immediate objects of perception?</li> <li><input type="checkbox"/> The origin of concepts and the nature of knowledge</li> <li><input type="checkbox"/> The Definition of Knowledge</li> </ul> <p>Philosophy of Religion explores:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> The Concepts of God</li> <li><input type="checkbox"/> Arguments relating to the existence of God</li> <li><input type="checkbox"/> Religious Language</li> </ul>	<p><b>Topics Covered/ Areas of Focus:</b></p> <p>The word Philosophy comes from the Ancient Greeks and can be translated to mean ‘the love of wisdom’. The Philosophy A- level course is designed to encourage students to explore a range of classical philosophical issues, from Epistemology and Metaphysics, to Rene Descartes’ Meditations.</p> <p>At A2 students are given the opportunity to specialise further and study Ethics and Philosophy of Mind. The aim of the course is to refine and build upon skills such as the ability to ask penetrating questions, construct sound arguments and present clear and logical evaluations.</p> <p>Ethics explores:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Ethical Theories: How do we decide what is morally right to do?</li> <li><input type="checkbox"/> Ethical Language</li> </ul> <p>Philosophy of Mind Explores:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> The mind and body problem: What is the relationship between the body and the mind?</li> </ul>
<p><b>Skills Development &amp; Expected Progress:</b></p> <p>Learning is achieved through a range of mediums including class discussions, video, lectures and group tasks. At both AS and A2 students will be required to read and</p>	

engage with philosophical texts. Learning is solidified via exam practice, essay writing and more informally via discussion. Students are encouraged to think analytically and demonstrate understanding with clarity and precision.

**Assessment:**

Students are assessed regularly and exam practice incorporated into most lessons.

End of unit assessments take place every 6 weeks and students who are not on target are offered a range of support including extension lessons and academic tutors.

Assessments are tracked and monitored closely to ensure progress is being made by each student.

**Literacy:**

Across the course at both AS and A2, students are encouraged to develop and hone their literacy skills. Via essay writing, group work and presentations, students are encouraged to develop their writing, listening and speaking skills. It is essential that students become philosophically literate and are able to engage with philosophy beyond the course.

**Numeracy:** Students will analyse relevant data and statistics.

**Numeracy:** : Students will analyse relevant data and statistics.

**ICT:** Students will use a range of ICT software including: Word and PowerPoint.

Students will also be required to use the Internet as part of research.

**ICT:** Students will use a range of ICT software including: Word and PowerPoint.

Students will also be required to use the Internet as part of research.

**Life in Modern Britain:**

Democracy: Students to explore how a democratic society accommodates differences. For example, Kant's Kingdom of Ends is used as a discussion point.

The rule of law: Exploration of the role religion plays in the law (such as the oath). Lessons explore ten commandments and modern law, for example Plato Vs Modern society in relation to government.

Individual liberty and mutual respect: Philosophy raises many opportunities for students to express their personal beliefs; this is done in a way that is respectful to all. Students explore and write about concepts that differ to their own encouraging respect and tolerance.

Tolerance of those with different faiths and beliefs: Unit explores arguments for existence of God. Students are encouraged to explore these in a respectful manner even if they differ from their own belief/ faith. Students must be able to engage in discussion about opposing ideas and understand why ideas on God/ religion/faith vary.

**SMSC:**

The study of Philosophy provides students with many avenues to develop their SMSC. During the modules of Religion, students are encouraged to explore the place of religion and spirituality in society, as well as reflect on their own beliefs and reasoning behind them. Morality is an area that is explicitly investigated during the course with students addressing questions such as 'where does good come from?' and 'Is morality objective?' Through group work, debate and discussion, students are given ample

opportunity to develop social skills. The course has been designed to reflect the perspectives of different cultures both contemporary and historically.

**Meeting the needs of individual students & Additional Support:**

The philosophy department at Sir John Cass aim to meet the individual needs of students. A range of teaching styles are used to ensure that all learning preferences are catered for. Open door sessions take place where students can clarify or catch up on work and academic mentors are provide to assist students with essay writing and exam techniques.

**Extra-Curricular Activities & Club:** Booster sessions are held twice a week during the Summer term and as and when needed throughout the year.

**Extra-Curricular Activities & Club:** Booster sessions are held twice a week during the Summer term and as and when needed throughout the year.

**Independent Study/ Homework:**

Students are set homework at least once a week and are expected to continually solidify their knowledge via reflection, wider reading and note taking. Homework tasks include: reading, exam practice, essay planning and independent research.

**Resources for Learning Support and VLE:** Students are provided with relevant texts books and a list or recommended sites for VLE and independent learning.

**Resources for Learning Support and VLE:** Students are provided with relevant texts books and a list or recommended sites for VLE and independent learning.
